Art Unit: 3724

1. Claims 3-4,9-20 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected group or species, there being no allowable generic or linking claim. Election was made without traverse in the reply filed on 28 October 04.

2. Claim 2,7 and 8 are objected to because of the following informalities:

In claims 2 and 7, the phrase "a link mechanism.....to release the brake unit" is incorrect. In the elected species, the link mechanism (277) does not release the brake. To correct this, simply delete the phrase "and to release the brake unit from a braking condition"

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claim 2 is rejected under 35 U.S.C. 102(e) as being anticipated by Nagashima '547, who shows a bush cutter with all of the recited limitations including a throttle lever (30), a prime mover (2) and a link mechanism (40) in close proximity to the prime mover.

5. Claims 7 and 8 will be allowed upon the correction of the above objection.

6. Made of record but not relied on are numerous pieces of prior art from the parent application plus a new reference to Haas.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ken Peterson whose telephone number is 571-272-4512. The examiner can normally be reached on Monday thru Thursday between 7am and 4pm.
